

Coexistence Queensland is committed to supporting transparency, accountability and integrity to protect the public interest.

Coexistence Queensland's Board members have a duty to identify and internally disclose actual, perceived or potential conflict(s) of interest. Coexistence Queensland and the Board actively manage identified interests in accordance with internal policy to ensure decisions are made in an unbiased and fair way. This includes strategies such as redacting board material and board members leaving the room when conflicts arise, so they are not included in the discussion and decision-making process.

This is a Public-facing Declaration of Interest Register, and is published with consent of the Board members. It is a live document, and it will be updated as new interests arise or as interests are closed and reviewed after each Board meeting.
